It would be very helpful if we could have enough DVD copies for each CAG member to have one for review.

Jim,

The dates, times and locations of the public meetings will be released with the announcement of the Proposed Plan next week.

EPA plans to provide the CAG with 1 hard copy of the Proposed Plan and 3 cds with the Proposed Plan. Provided no snafus with EPA printers or computers, I plan to provide the hard copy and 3 cds with the plan to you right before the CAG meeting begins. An announcement with EPA Official public meeting schedule will also be provided.

Yes that is correct, EPA will not provide a presentation at the CAG meetings. EPA will provide presentations during the public meetings for the general public to attend per our regulatory guidelines.

Hi Davis,

I left a message for Alanna a few days ago but haven't heard back yet. Maybe you can answer my question.

Since the Proposed Plan is to be released on June 8th, which is the same day as the regular

CAG meeting, I am guessing that the plan will be the same as what Alanna had originally planned for last month, which is that EPA will bring a full printed copy of the Proposed Plan to leave with us, along with several DVD copies for CAG members to use. Alanna had said last month that EPA would also provide the schedule of upcoming Public Hearings, but would not be able to do an actual presentation of the Plan at the CAG meeting.

Is this correct?

thanks,

jim
